Dear Kelly Armstrong,

I am an eye witness to a weaponization of our Federal Government against it's past and future president Donald J Trump. I am also an eye witness to the weaponization of our Federal Government aganist the North Dakota citizens as well as all citizens of our country. I was attacked with FISA abuse by Sally Quillian Yates, classified as a foreign intelligence agent for the purpose of fraud, to steal millions from the taxpayers. I "stung" Sally Yates to catch a large criminal organization in GA law enforcement that was ruthlessly attacking me. After being drugged with Rohypnol and conducting the "sting," Sally Quillian Yates told me about her plan to controll the govenerment, specifically targeting Trump. According to Yates, Trump was a potential presidential candidate that the spy agencies didn't control. Despite my many efforts to warn out country, FISA has been used to silence me while Trump and America were heinously attacked.

I have made numerous attempts to reach you since you are not only my representative, but also on the Congressional sub committee for the weaponization of the Federal Government. Still, you have not responded. I have a billboard up in Minot now that says "I'm an unheard witness to a plot by top brass, Please call reporters!" A few of these billboard have been up for the last few months! There is a reporter covering this story; Tommy James of Minot's Trending Topics. You can watch several news podcast on Facebook under Minot's Trending Topics. How much do I have to spend to get your attention?

The reason I asked the public to call reporters is because I realize you aren't responding. I suspect FISA is being used to intercept your calls and E-mail. What good is oversight if the overseer's are controlled by corrupt spies and or the corrupt Federal Judges that sign FISA warrants to keep our representatives and oversight from doing their job? Please, represent me as your constituent and talk to Jim Jordan and the rest of the sub-committee on the Weaponization of the Federal Government about the nation's most important witness and the need to protect him! I am a critically important witness because I can prove Sally Yates was using FISA to run organized crime, I am eye witness who know of several other reluctant witnesses. I have been investigating this criminal organization in our government for 15 years! To convict the deepstate mobsters for these crimes one needs to prove intent. I am the witness who can do this. Please help me be recognized and protected!

Sincerely, Ferris Broxton Jr
