Mr Armstrong,

I've been trying to reach you for years now. I've had billboards up in Minot for months that say, "I'm an eyewitness to a plot by top brass, please call reporters!" Now a local news reporter is covering the story and that you can't hear your constituent. Since your on the weaponization of federal government sub-committee, you should know I've been your best witness, though you never heard me!

Our nation is demanding accountability for the malicious prosecutors that attacked Trump. I busted the kingpin that started it all and classified Trump as a Russian Intelligence agent. The evidence is online: simply type my name into the search bar on Rumble. I have no doubt that the spies I've busted have intercepted your phone calls and emails for years. I'll be uploading those to prove how shamefully our representative republic has been compromised. I keep trying because the spies know FISA will be coming under scrutiny and are losing their courage.

I'm the best witness for Trump to expose and shutdown the deepstate mobsters. I sure could use your support and publicity. A phone call to Jim Jordan would be greatly appreciated! Please let me know you've received this message with an appropriate response, not just a form letter like the one I read on the news podcast from "you" (I pointed out it probably didn't really come from your office).

Your constituent,  
 Ferris Broxton 801-989-4460
