

Dear reporter,

12/9/2020

You are holding in your hand the largest and most important story you could hope for.

I am Ferris Broxton Jr. I stung Sally Yates and the criminal organization at the top of US intelligence that has overthrown our election by a coordinated effort. I joined this "racket" to catch a bunch of people who were attacking me with Rohypnol and a proposal to join this group of powerful criminals in taking over our government. I didn't even realize how ambitious their plan was until I came up with the plan to sting them and then executed it, after again being drugged with Rohypnol. I have since come forward numerous times only to find that my reports went nowhere. I didn't understand that F.I.S.A. was the program being abused to control me.

Now, anyone who knows how to watch TV, realizes that FISA was used to attack our President . Sally Yates was the US attorney who did it and I busted her doing it long before Trump was elected. Sally used US intelligence to estimate that the next election would be between Clinton and Trump and told me that "we would do whatever necessary to oust him if he wins." I have the evidence to show that I busted Sally and repeatedly reported to all proper authorities under Chris Ray, Gina Haspel, and Bill Barr. I don't know that Bill Bar has ever received the numerous reports I've issued....even taken by hand to his DC office repeatedly. I am turned away by a guard with a name tag that says "Miranda" and told that all complaints must be online...even after explaining that all my online reports are ignored- no doubt scuttled.

Clearly the problem is that Sally Yates, who gained her corrupt skills from her long connections to spy oversight...from the same circuit as Richard Russel Jr...Also the name on the GA federal buildings. I can quickly lay out this history for anyone interested.

In other words, if you want to expose the conspiring scum who coordinated the overthrow of this election after failing to finish the job at the last election, then seek me out, give me a voice and I will be able to expose the criminals in the deep state and how they did it.

I am harassed mercilessly, sabotaged strategically, so I am selective on giving out my residence information and you will have to show me that you are willing to report on my case before I put much effort into working with you . You will likely not be able to reach me by phone or any electronic devices. Expect corrupt spies to intercept and obstruct every effort.

Make no mistake, I hold a degree in Physics and can quickly explain complex issues, I'm not delusional. I also hold a Class A CDL with all endorsements including Hazmat. This means I have passed sensitive TSA background checks. I have also studied Law and collected massive amounts of evidence to expose FISA abuse against me conducted by the same people who used it to attack our President.

If you have the desire and courage to look into my case, please say so now. I've been shot down too many time to write up an e-mail summarizing my complaint and wait for a response.

Sincerely, Ferris Broxton Jr
