Facts

Yes, I have caught a group of criminal spies including Yates manipulating our government. I have a tremendous amount of evidence of spying on US citizens and organized crime conducted under Yates instruction. This is time sensitive since it is hot in the news now and they are obstructing the case that the USDOJ is claiming to investigate.

Sally Yates and her family members overseeing a jail in Jackson County GA tried to force me into a racket. I "stung" them after being tormented and subjected to espionage tactics including the "date rape drug" Rohypnol. By a bizzare twist of events, they forced me into their "inner circle" and showed me much of how their illegal empire works before realizing that I had well documented I had no intentions of joining them but only exposing them. I have evidence to support the ACLJ's IRS lawsuit, the ACLJ's effort to expose the shadow government and multiple flagrant civil rights claims of my own including wrongful imprisonment, physical injury by police, denial of access to the courts and denial of access to legal counsel of my choosing. These spies have gone to tremendous lengths, including intercepting phone, fax, and e-mails to prevent me from reaching the ACLJ over a period of several years. I have twice driven to DC and knocked on the door of the office. Two weeks ago workers (claiming to be working on the electrical system) sent me away saying that the attorneys were trying to have a meeting and I was disturbing them. Sincerely Ferris Broxton Jr
